JUNE 2016

M&M CONTROL SERVICE, INC. DISTRIBUTES THE FINEST NAMES IN THE INDUSTRY!

**KUNKLE VALVE** IS OUR FEATURED MANUFACTURER FOR THIS MONTH:

**High quality safety and relief valves are synonymous with the name Kunkle.** Erastus B. Kunkle worked for the Pennsylvania Railroad during a time when serious injury and mechanical problems could result from over-pressure of the locomotive engine. In 1875, E. B. Kunkle invented the "lock-up safety valve" designed to relieve engine pressure, which revolutionized the industry.

**Kunkle Valve** products for industrial and commercial applications include steam, air, liquid, cryogenics and non-hazardous gases. Kunkle safety and relief valve products range in size from 1/4-inch NPT through 6-inch flange and are suitable for services ranging from cryogenic to 850° F. at set pressures ranging from vacuum to 6,500 psig. They are available in a wide range of materials including brass, bronze, carbon steel, stainless steel, cast iron, and aluminum.

M&M Control offers a full line of **Kunkle Valve Products**. Call **1-800-876-0036** for additional products!

				
Models 1 & 2 Brass <a href="#">Safety Valves</a>	Models 40R and 40RL, Non-code Steam Service, <a href="#">Steam Relief Valves</a>	Models 189, 363, & 389 Air/Gas <a href="#">Cryogenic Safety Valves</a>	Models 541, 542, and 548 Kunkle <a href="#">Safety Valves</a>	See M&M's <a href="#">Full Line</a> of Kunkle Valves

**Did you know . . .** In addition to the Kunkle valve, Erastus Kunkle also developed a water gauge, gauge-cock, steam gauge, and, patented on Sept. 5, 1871, a "new and improved egg-beater, provided with self-acting valves!"
